SUMMARY

I am a detail-oriented Data Analyst with a strong background in inventory management, business operations, and data-driven decision-making. Currently pursuing a Master's in Economics with a focus on Data Science and Policy Analysis, I am skilled in Python, R, SQL, Excel, and Tableau, and am also training in SAP Cloud Analytics. With experience at Swappie and Vanir Capital LLC, I specialize in collecting and analyzing data to generate actionable insights. My diverse roles demonstrate my adaptability and problem-solving skills. Fluent in English and basic German, I leverage my technical expertise to drive business growth and efficiency.
